Technology Camp 2015

1299 Main St. Ste. C
Dunedin, FL 34698

Session 1 – 5 Days @ 3 Hours a Day

- ▶ This camp is designed to give kids a up-close look at computers, technology, photography and web design. While most skills will be introduced at a basic level, all the projects will be hands on. My goal is for them to be able to take a picture, edit it, post it on a website they create and understand how that picture gets from a web server to their home screen.
- ▶ They will be exposed to real industry standard equipment:
 - ▶ HP, IBM Rack Servers running VMware with Windows and Linux OSes
 - ▶ Alienbees Studio Lighting, Sekonic Metering and Canon Camera Equipment
- ▶ All activities will revolve around internet and kid safety!
- ▶ They are welcome to bring a laptop, tablet or phone. Technology is welcome.
- ▶ A digital camera will be required.
